Wick Phillips Gould & Martin, LLP

There's no question that Bryan Wick's numerous accolades — which include being named a “Best Lawyer in Dallas” for two years by D Magazine and a “Texas Super Lawyers Rising Star” five years in a row — are the direct result of his keen ability to help guide his clients toward positive outcomes both in the courtroom and the boardroom.

Bryan, a founding partner of Wick Phillips Gould & Martin, LLP, has practiced in the area of commercial and bankruptcy litigation for over 13 years. Throughout his career he has represented and counseled a broad spectrum of clients, from local companies and individuals to large, publicly-traded and privately held companies. His courtroom accomplishments are as varied as they are impressive:

- Obtaining a judgment of approximately \$2,800,000 in an aviation dispute.
- Litigating a complex lender liability dispute that ultimately ended in a verdict exceeding \$40,000,000 for the firm's client.
- Prosecuting and defending numerous bankruptcy-related matters, including avoidance and fiduciary actions and litigating a complex bankruptcy adversary proceeding involving eighteen defendants to successful resolution.
- Trying to verdict a \$100,000,000 fraudulent conveyance adversary proceeding.

Bryan and his fellow attorneys at Wick Phillips Gould & Martin, LLP have a uniquely client-centric philosophy in that success is achieved only when the client's goal is met, expectations are exceeded, and a relationship of confidence is established.
